

Effective Implementation with Big Ideas Learning

Successful program adoption is more than delivering new materials. It means helping teachers feel confident, prepared, and supported at every step. Our implementation plans are built around your district's goals and designed to meet the needs of your teachers. With thoughtful planning, hands-on support, and ongoing collaboration, we help bring your vision for teaching and learning to life in the classroom.

THE CORE OF THE PROGRAM

Using key tools and instructional resources in Big Ideas Learning programs to support teachers and drive student success.

ENHANCING INSTRUCTION

Applying research-based strategies to strengthen instruction, increase engagement, and accelerate student learning.

SUSTAINABILITY

Supporting your district in maintaining momentum, reinforcing instructional routines, and planning for long-term success.

Our Ongoing Commitment to You

This implementation plan is designed to fit your district's needs, with support tailored to the number of educators and available contact days.

Year 1

- Three professional learning sessions to equip teachers with the tools and confidence to teach with Big Ideas Learning
- Office Hours for district staff and teachers to access support when needed
- Two sessions designed to help administrators support teachers and students with clarity and purpose

Year 2 and Beyond

- New teacher training to ensure every new hire is set up for success
- Ongoing Office Hours to provide timely, flexible support
- Continued sessions for administrators to strengthen leadership and alignment

Professional Learning That Meets You Where You Are

Whether you are leading district initiatives or working directly with students, our professional learning supports the real work happening in your schools. We partner with you to build a plan that strengthens leadership, grows teacher capacity, and connects directly to classroom goals.

Teachers

- Deepen content knowledge and instructional strategies
- Apply program routines and lesson structures with confidence
- Adapt to classroom challenges and grow in practice

Instructional Leaders and Administrators

- Strengthen leadership and coaching strategies
- Build shared understanding of instructional priorities
- Align support to district-wide goals and daily instructional needs

Enhancing Instruction Topics

- Using manipulatives to build conceptual understanding
- Applying Building Thinking Classrooms strategies with Big Ideas Learning
- Promoting collaboration through cooperative learning routines
- Enhancing assessment with test practices and formative checks
- Aligning curriculum maps to pacing and instructional goals
- Hosting family nights to engage caregivers in student learning

Big Ideas, Built Together

We collaborate with your team to develop a professional learning plan that reflects your district's priorities and supports meaningful classroom teaching.
